Report: Bentley View CONNECT Edition

Bentley View CONNECT Edition is now available. This is a must have software for every CAD user. And it is free! View any version of MicroStation or AutoCAD files plus SketchUp, Rhino, IFC, OBJ, and more. This can help you be multi-CAD-lingual. You can also view iModels including the business data that comes with it. For example, if you save a Revit file using the iModel plugin, you can view not only the Revit model, but also the business data associated with it in Bentley View.

There is so much more that this product can do. Apply Background Maps to your view to see your model in geographic context. Display your views based on Display Styles and Display Rules. Use Explorer to navigate easily through your Sheet Index. You can use it to print and plot files too!

This is an important tool for every CAD Manager, VDC Manager, Project Manager, Department Manager, and anyone involved with AEC projects. Go to connect.bentley.com today, login (or register!) and choose Software Downloads from your My Support section. Select MicroStation as the brand and then download and install Bentley View CONNECT Edition on as many computers as you own, at no cost!

Last Chance: Submit for Year in Infrastructure Awards

The deadline for the Year in Infrastructure Awards submissions is fast approaching on **April 30, 2019!** Don't miss out on this amazing opportunity to be recognized for work you've already done! This is a fantastic opportunity for anyone using Bentley software for their projects. All nominations are published in the Year in Infrastructure book each year which is available through print or online.

And if you are selected as a finalist, you will receive a free trip to the Year in Infrastructure Conference in Singapore in October to present your project before a panel of judges. You will also be able to attend the conference and network with other Bentley users from around the world. If you are chosen as the winner for your category, there are numerous benefits, not the least of which is public recognition for your outstanding project.

Submit today!

ACCELERATE ProjectWise Conference - May 8-9, 2019

The ACCELERATE ProjectWise Conference is coming up Wednesday-Thursday, May 8-9, 2019 in San Diego, CA. This conference has two main tracks: one for IT Leaders and the other for Project Leaders.

With Keynote Presentations on Adapting Project Delivery to the Industry's Challenges and Opportunities, to Workshops about saving time, reducing risk, and driving better project outcomes, this conference is sure to be great for all who attend. And Archway will be presenting a Case Study of clients we've implemented ProjectWise for.

Register today! Online registration for this conference ends May 2nd, but walk-in registration will be available on the day of the event as well.
