## Report: New Software - OpenSite Designer

Bentley has a new Site Design Product called OpenSite Designer. This product is a comprehensive solution for designing a site plan. Some of the features include: generating grading and stormwater drainage plans, automating drawing production, designing in context, performing design-time analysis, and so much more.

This new software is a standalone product you can use if all you do is Site Design. It is a full package with all of the capabilities you want and need to create a successful design efficiently. If you are a road or rail designer who also needs site design functionality, this is also great news! [The full functionality of OpenSite Designer is included in OpenRoads Designer and will be included in OpenRail Designer.](#)

OpenSite Designer, standalone or in one of the other Civil products, will help simplify your workflow, provide fast modeling, analysis, and optimization, and automate the production of your design deliverables. This software is perfect for your site development project no matter how small or large your project is. Want to learn more about it? Bentley is hosting a webinar on **Tuesday, April 16, 2019 at 10am PDT** which you can [sign up for here](#). We also will have multiple lecture sessions on OpenSite Designer at the next Bentley Bash. See below

for more details.

## Mid-2019 Bentley Bash - May 21-22, 2019

The next SoCal Bentley Bash is coming up [May 21-22, 2019](#) at the AEC Next/SPAR 3D Conference at the Anaheim Convention Center in Anaheim, CA. We will have 1-hour lecture sessions and 3-hour hands-on workshops. Come to the Bash and get into the Product Previews and Welcome & Happy Hour on Tuesday, and the Exhibit Hall and Keynote Presentations on Wednesday for free!

The topics this year will include NEW OpenSite Designer, AEC/SPAR specific lectures, MicroStation CONNECT, ContextCapture, and more! Sign up today to be the first to know when registration opens!

## ACCELERATE ProjectWise Conference - May 8-9, 2019

The ACCELERATE ProjectWise Conference is coming up [Wednesday-Thursday, May 8-9, 2019](#) in San Diego, CA. This conference has two main tracks: one for IT Leaders and the other for Project Leaders.

With Keynote Presentations on Adapting Project Delivery to the Industry's Challenges and Opportunities, to Workshops about saving time, reducing risk, and driving better project outcomes, this conference is sure to be great for all who attend. And Archway will be presenting a Case Studies of clients we've implemented ProjectWise for. Don't miss this!
