2021 Bentley Bash Goes Virtual

As many events have this year, our annual SoCal Bentley Bash is set to go virtual this year! We still plan to hold sessions covering several different software including MicroStation, OpenRoads, OpenBuildings, ContextCapture and more. This year you will receive 90 day self-learning on any of 50 Bentley software to practice your hands-on quickstart courses from the Bash! Access will be available as soon as registration launches and will give you access to hundreds of on-demand training courses as well! Top that off with certificates issued by Bentley for any of the live Bash courses plus any self-taught, on-demand courses. RemoteDesktop access will be available for up to 50 computers for those who need it for hands-on courses through Rio Hondo College.

As always, the Bentley Bash will provide food and have door prizes, plus great keynote speakers! All of this is provided through cooperation of Bentley User Groups, Bentley Institute, Rio Hondo College and Archway Systems. You don't want to miss it!

This event will take place mid-January as usual, but we need your help!

We need to know when and how you'd like this conference presented. We want to make sure that in these chaotic times, we can still help you brush up on your Bentley software skills or learn new software. We also want to give you networking opportunities to help keep you connected.

Please fill out our survey below to help us make this Bash the best it can be for you and other users.

Report: Archway Systems' Expanded Operations

While continuing to be headquartered in California, Archway is expanding its operations to more fully support all U.S. clients from our central time zone office in Tennessee. As always, all purchases of Bentley software are purchased by clients directly from Bentley, but involving Archway with your purchasing process increases your benefits at no

additional cost. Archway, as a 30-year partner of Bentley, will help you navigate the complexities of software purchases, introduce you to the plan best suited and most economical for your specific requirements, help when there are problems, provide no cost introductory training through the annual Bentley Bash and periodic webinars, and more. In addition, if you need formal training, consulting or extra, knowledgeable resource, Archway is here to help with our top rated staff.

Some notable facts about Archway:
1. Named by Bentley as Lifetime Achievement Award winner in 2012
2. Top ProjectWise partner for several years
3. Top trainer for several years
4. Top Cloud Service Subscription partner in 2018
5. Organized and conducted 20 Bentley Bashes averaging over 150 professional and academic attendees at 5 different colleges
6. Member of and chair of academic advisory committees
7. Developed original MicroStation Quickstart course
8. Wrote original training materials for Pointools before company was acquired by Bentley
9. Wrote course material and taught a college ContextCapture course
10. Currently the Industry Advisor to NSF ATE Geospatial Grant to East Los Angeles College/Cal Poly Pomona
11. Teaching 16 week special studies college course in MicroStation, ContextCapture, ConceptStation, OpenSite and OpenRoads
12. Create a million square foot building Bentley BIM model and pedestrian bridge for an auto assembly plant in Tennessee.

ProjectWise 365 - Now on Virtuosity

ProjectWise 365 is the easiest way to get into ProjectWise's data collaboration software with its instant-on cloud storage making project files accessible to all participants.

Now it is easier than ever to get started with ProjectWise 365 as part of Virtuosity. There's no annual minimum, just **$260 per year** per named user. You can even start with just one user! Add more users when you need them - the more users, the better collaboration.

Call Archway today to get started with ProjectWise 365 through Virtuosity!

ACCELERATE Series - Now Available

Bentley's ACCELERATE series of webinars is now available. Learn about the latest in Bentley software by watching this series of webinars. Topics include MicroStation, OpenRail, OpenRoads, OpenPlant, OpenBridge, OpenCities, LumenRT, LEGION, ContextCapture, iTwin, and so much more.

Visit Bentley's website to see all of the available ACCELERATE webinars and then click on the individual webinar to register!
